Summary

Informatics student at Indiana University (IU) Luddy, expected May 2027. Digital Humans Project Lead at Luddy on AI-driven virtual personas, trust, privacy, UX research, and adoption, while shipping accessible web for organisations without in-house engineering. Seeking software engineering, AI product, or platforms and data roles.

Education

Indiana University Bloomington — Bloomington, IN
B.S. Informatics (Business & Society), Luddy School of Informatics, Computing, and Engineering — Expected May 2027
- GPA: 3.50; Hudson & Holland Platinum Scholar (full merit); first-generation; Madrid UCM, Spring 2026.

Experience

Digital Humans Project Lead — Feb 2025 to present
Luddy, Indiana University — Bloomington, IN
- Lead applied research on Digital Humans, generative AI, and human-computer interaction (HCI) across customer, operations, and internal workflows.
- Shipped research board covering 15 stats across 5 themes (100% layer coverage; 20% theme balance each); ran gap analysis on published market inputs (72% adoption vs 5% at-scale = 67 pp) and ranked builds with a theme-weighted priority formula (top score 95 on the at-scale gap) for Digital Humans how/why work.

Serve IT — Jan 2024 to present
Laurie Burns McRobbie ServeIT Nonprofit Clinic, Luddy School, Indiana University — Bloomington, IN
- Lead intake, scoping, and delivery of accessible web for local nonprofits without in-house engineering.
- Build and hand off sites with React, Python, PostgreSQL, and WCAG 2.1; partners include City of Bloomington and Middle Way House.

Web Developer — Jun 2026 to Jul 2026
National Science Foundation (NSF) — Bloomington, IN
- Researched how consumer applications collect, store, and protect personal data on a university project.
- Translated technical privacy findings into user-facing trust considerations under a non-disclosure agreement (NDA).

User Experience Designer — Aug 2025 to Dec 2025
Indiana University Undergraduate Education — Bloomington, IN
- Defined UX research questions and ran secondary research on privacy communication, consent behaviour, and user trust in consumer technology.
- Synthesised published UX privacy inputs (91%/97% consent without reading; half fail comprehension after reading) into themes for clearer interface and copy decisions.
- Quantified an 80 pp clarity deficit from Deloitte 20% "very clear on data use" and recommended collection, storage, and protection language that supports informed decisions.

Business Technologist — May 2024 to Dec 2024
Public Interest Technology University Network (PIT-UN) — Bloomington, IN
- Researched agentic AI, go-to-market (GTM) strategy, and organisational adoption for nonprofit and public-interest settings.
- Connected AI capabilities with implementation constraints, trust, and use beyond an initial pilot.

Restaurant Kid — May 2017 to Jun 2023
Family Chinese Buffet — Greenfield, IN
- Rebuilt the family restaurant website and social media after COVID-19, while working floor, till, and kitchen operations.

Leadership

Program Assistant, Office of Student Life, HHSP — Aug 2023 to present
Hudson & Holland Scholars Program, Indiana University Office of Student Life — Bloomington, IN
- Support scholars and day-to-day programme operations for HHSP (Hudson & Holland Scholars Program) through the Office of Student Life.

Technical Skills

- Languages: Python, TypeScript, JavaScript, SQL, Java, HTML/CSS | Systems: React, Node.js, PostgreSQL, Git, REST APIs
- AI & HCI: Digital Humans, Generative AI, LLMs, RAG, Agentic AI, HCI | UX: WCAG 2.1, Figma, UX Research, Data Privacy | Spoken: English, Fuzhounese, Spanish
