Summary

Solutions Engineering / technical GTM | B.S. Informatics @ IU Luddy (May 2027) | ServeIT website lead | TypeScript, React, Python, PostgreSQL, WCAG, LaTeX.

Experience

Solutions Engineering Intern | Early-Stage NYC Startup

Jun 2026 – Present

New York City Metropolitan Area | Hybrid

- Join customer calls for technical discovery; scope pilot requirements and bridge sales and engineering on deliverables
- Build demo environments, POC sandboxes, and integration prototypes; translate feedback into shipped iterations and pilot handoff docs

Undergraduate Researcher | ProHealth REU, IU Luddy

Jun 2026 – Present

Bloomington, IN

- Conduct HCI and health informatics research with qualitative methods: semi-structured interviews and transcript analysis
- Contribute to CHI 2027 workshop paper (in preparation) on health-data communication for athlete-facing tools

Website Team Lead | ServeIT Clinic, IU Luddy

Jan 2024 – Present

Bloomington, IN

- Lead WCAG 2.1 nonprofit web builds; scope with partner staff and ship sites they maintain without a developer on call
- Engineer engagement tools and Python/PostgreSQL ETL pipelines with validation for community partner data

MAP Coordinator & Undergraduate Teaching Assistant | IU Office of Student Life

Aug 2023 – Present

Bloomington, IN

- Direct the FASE Mentor Apprenticeship Program; manage LMS ops, mentor training, and the matchaxmoxie teaching site
- Support 50+ students as a UTA with study resources; plan campus leadership and career programming with university partners

Web Designer & Instructor | Girls Who Code

Jan 2018 – Aug 2023

Indianapolis, IN

- Taught 50+ students coding and digital literacy; mentored 20+ young women toward STEM through workshops and student-led projects

Education

Indiana University, Luddy School of Informatics | Bloomington, IN

May 2027

B.S. Informatics (Business & Society), Minor: Business (Kelley) | **GPA: 3.70**

Hudson & Holland Scholar | Dean's List | Luddy Direct Admit | Hutton Honors | Study abroad: Complutense Madrid, Spring 2026

Selected Projects

Potstickers | Family Restaurant Site

New Palestine, IN

- Shipped public site, Clover online ordering, and contact flow for a family restaurant (pstickers24)

The Virtual Duck Farm

jadexzhao.github.io/jadexzhao/duck-farm

- React/TypeScript/Vite sandbox with state-driven animation and DOM isolation for portfolio demos

ServeIT Data Pipeline

serveit.luddy.indiana.edu/serve-ai

- Python and PostgreSQL ETL with strict validation to ingest and query community partner datasets

Skills

Technical: Python, TypeScript, JavaScript, SQL, React, Node.js, PostgreSQL, Git, HTML/CSS, LaTeX

Practices: WCAG 2.1, ETL, solutions discovery, product demos, technical documentation

Languages: English (native/bilingual) | Mandarin Chinese (native/fluent) | Fuzhounese (professional) | Spanish (elementary)
