Education

Indiana University Bloomington	Bloomington, IN
B.S. Informatics (Business and Society)	Expected May 2027
- Luddy School of Informatics, Computing, and Engineering GPA: 3.50 - Hudson & Holland Platinum Scholar (Full Merit) Direct Admit First-generation college student - STEM MAP Coordinator (science, technology, engineering, and mathematics; Mentor Apprenticeship Programme), Faculty and Staff for Student Excellence (FASE), IU Office of Student Life; First Year Experience programmes - ServeIT Website Team Lead; accessible nonprofit web projects (WCAG 2.1) - Study abroad: Universidad Complutense de Madrid, Spring 2026	
Cathedral High School	Indianapolis, IN
High school diploma, high honours GPA: 4.00	Aug 2019 to May 2023
Advanced Placement (AP) Scholar; Quill and Scroll; AP CSA (Java) and AP CSP; yearbook editor; 200+ service hours	

Experience

Software Engineer	Aug 2026 to present
Stealth Startup	Remote
- Design and ship full-stack systems in Python, TypeScript, React, and Node.js across application programming interfaces (APIs), automation, developer tooling, and large language model (LLM) workflows, including tool-calling, structured inputs and outputs, and retrieval-augmented generation (RAG). - Build and evaluate agentic coding flows with task decomposition, model routing, context handoffs, and human-in-the-loop review.	
Undergraduate Student Researcher	Jun 2026 to Jul 2026
National Science Foundation (NSF)	Bloomington, IN
- Investigate how consumer applications collect, store, and protect personal data on a university research project with an industry partner under a non-disclosure agreement (NDA). - Analyse and document privacy practices for research deliverables at a high level without disclosing partner-confidential detail.	
Undergraduate Researcher	Aug 2025 to Dec 2025
Indiana University Luddy School of Informatics, Computing, and Engineering	Bloomington, IN
- Analyse how consumer technology handles personal data, including collection, storage, and protection practices. - Extend privacy research at the Luddy School through independent analysis and written research notes.	
Undergraduate Researcher	May 2024 to Dec 2024
Public Interest Technology University Network (PIT-UN)	Bloomington, IN
- Research agentic AI (systems that can act toward a goal with limited human prompting) as public interest technology for nonprofit organisations. - Research go-to-market (GTM) approaches that help nonprofit organisations adopt and sustain technical tools.	

Skills

Languages	Python, TypeScript, JavaScript, SQL, HTML, CSS, LaTeX
Frameworks	React, Node.js, PostgreSQL, Git, GitHub Pages, APIs
AI / ML	full-stack AI systems, LLM (large language model), RAG (retrieval-augmented generation), agentic AI, tool-calling, structured inputs and outputs
Data / Privacy	privacy, personal data, consumer technology, NDA-aware research, database management, ETL (extract, transform, load)
Tools / Practices	GTM (go-to-market), WCAG (Web Content Accessibility Guidelines) 2.1, technical documentation, exception handling, input validation, Figma, Canvas LMS

Spoken languages	English (native), Fuzhounese (native), Spanish (intermediate), bilingual technical writing (English / Chinese)
