Education

Indiana University Bloomington — Bloomington, IN

Bachelor of Science in Informatics. Expected May 2027

- Minor: Human-Computer Interaction / Design. Cognate: Business & Society.
- Honours: Hudson & Holland Scholar, Provost's Scholarship, Founders Scholar, Luddy Dean's List.
- Coursework: programming, database systems, systems analysis, technology infrastructure, project management, financial management.
- Study abroad: Universidad Complutense de Madrid, Spring 2026.

Technical Skills

Languages: Python, SQL, JavaScript, HTML, CSS, Java.
Frameworks and databases: React.js, PostgreSQL.
Tools: GitHub, Figma, Wix Studio, WordPress, Jira, Confluence.
Technical areas: web development, database management, digital accessibility, WCAG 2.1, technical documentation, information systems.

Technical Experience

Digital Humans Project Lead — Feb 2025 to present
Luddy School of Informatics, Computing, and Engineering — *Bloomington, IN*

- Student lead on interfaces that look and communicate like a person: trust, disclosure, consent, and human oversight.

Technical Project Lead — Jan 2024 to present
Laurie Burns McRobbie ServeIT Clinic, Indiana University — *Bloomington, IN*

- Lead web and accessibility work for nonprofit and public-sector partners; turn requirements into deliverables teams can maintain.
- Coordinate student teams, schedules, evaluations, and documentation.
- Lead a WCAG 2.1 AA review for the Town of Nashville (keyboard, colour contrast, structure). Prioritised notes and handoff; no live-site edits.

Web Development Intern — Nov 2024 to Mar 2025
Benyue Restaurant — *Indianapolis, IN*

- Developed and deployed four customer-facing web pages in React.js for menus, hours, and location.
- Refined AI-assisted layouts and copy for readability, navigation, and usability.
- Structured site information so public pages stay consistent.

Consultant Intern — May 2024 to Dec 2024
Public Interest Technology University Network · Serve-AI — *Bloomington, IN*

- Wrote a public guide on database maintenance and scripts for setup workflows. Distinct from ServeIT.
- Documented processes so others can maintain the work.

Selected Projects

Restaurant website and online ordering — COVID period to present
Potstickers · web development and business systems — *New Palestine, IN*

- Built a customer-facing restaurant website in HTML and CSS during the COVID-19 pandemic.
- Helped implement online ordering and point-of-sale systems for daily operations.
- Organised menus, ordering instructions, and business information so customers can use the digital channels.

Property management database — Course project
Indiana University · relational database design — *Bloomington, IN*

- Collaborated on a data model for homeowners, students, property listings, and payments.
- Represented relationships between property-management entities to support organised record-keeping.

AI-assisted interface prototyping — Course project
Indiana University · interface design and development — *Bloomington, IN*

- Developed interface prototypes with AI-assisted design and application-building tools (no product brand names).
- Refined layouts, navigation flows, and components through iterative evaluation.

Leadership and Community

Program Assistant — Aug 2026 to present
Indiana University Office of Student Life, Hudson & Holland Scholars Program — *Bloomington, IN*

- Coordinate student programming, resource referrals, and administrative support for Hudson & Holland Scholars.
- Connect students with academic and campus resources through one-to-one guidance and programme communications.

Events and Alumni Relations — 2023 to present
FIRST Alumni and Mentors at Indiana University (FAMIU) — *Bloomington, IN*

- Coordinate campus events, alumni engagement, and professional networking.
- Work with alumni and university partners on engagement and mentorship.
