Education

Indiana University Bloomington

Bloomington, IN

B.S. Informatics (Business and Society)

Expected May 2027

- Luddy School of Informatics, Computing, and Engineering | GPA: 3.50 | Hudson & Holland Platinum Scholar (Full Merit) | Direct Admit | First-generation
- STEM MAP Coordinator (science, technology, engineering, and mathematics; Mentor Apprenticeship Programme), FASE, IU Office of Student Life; coordinate for 50+ first-generation and low-income students
- ServeIT Website Team Lead: 5+ nonprofit web projects (WCAG 2.1); Handshake / Instagram content, about 1.2M combined views | Study abroad: UCM Madrid, Spring 2026

Cathedral High School

Indianapolis, IN

High school diploma, high honours | GPA: 4.00

Aug 2019 to May 2023

- AP Scholar; Quill and Scroll; AP CSA (Java) and AP CSP; yearbook editor; 200+ service hours

Experience

Software Engineer

Aug 2026 to present

Stealth Startup

Remote

- Design and ship full-stack software engineering features in Python, TypeScript, React, and Node.js across APIs, database management, automation, and large language model (LLM) workflows (tool-calling, structured I/O, RAG).
- Build internal information systems and developer tooling with information technology (IT) teammates, including extract, transform, load (ETL) pipelines and agentic coding flows with human-in-the-loop review.

Undergraduate Student Researcher

Jun 2026 to Jul 2026

National Science Foundation (NSF)

Bloomington, IN

- Investigate how consumer applications collect, store, and protect personal data on a university research project with an industry partner under NDA.
- Analyse and document privacy practices for research deliverables without disclosing partner-confidential detail.

Undergraduate Researcher

Aug 2025 to Dec 2025

IU Luddy School of Informatics, Computing, and Engineering

Bloomington, IN

- Analyse how consumer technology handles personal data, including collection, storage, and protection practices.
- Extend privacy research at Luddy through independent analysis and written research notes.

Undergraduate Researcher

May 2024 to Dec 2024

Public Interest Technology University Network (PIT-UN)

Bloomington, IN

- Research agentic AI as public interest technology for nonprofit organisations.
- Research go-to-market (GTM) approaches that help nonprofits adopt and sustain technical tools.

Skills

Languages: Python, TypeScript, JavaScript, SQL, HTML, CSS, LaTeX | Frameworks: React, Node.js, PostgreSQL, Git, GitHub Pages, APIs

Software engineering: database management, internal information systems, information technology (IT), extract, transform, load (ETL) pipelines, full-stack AI, LLM, RAG, agentic AI

Data / Privacy: privacy research, NDA-aware analysis, technical documentation | Tools: GTM, WCAG 2.1, Figma, Canvas LMS

Spoken: English (native), Fuzhounese (native), Spanish (intermediate)
