Education

Indiana University Bloomington	Bloomington, IN
B.S. Informatics (Business and Society)	Expected May 2027
• Luddy School of Informatics, Computing, and Engineering GPA: 3.50 • Hudson & Holland Platinum Scholar (Full Merit) Direct Admit First-generation college student • Mentor Apprenticeship Programme (MAP) Coordinator, Faculty and Staff for Student Excellence (FASE), IU Office of Student Life; First Year Experience programmes • Study abroad: Universidad Complutense de Madrid, Spring 2026	
Cathedral High School	Indianapolis, IN
High school diploma, high honours GPA: 4.00	Aug 2019 to May 2023
• Advanced Placement (AP) Scholar; Quill and Scroll; AP CSA (Java) and AP CSP; yearbook editor; 200+ service hours	

Experience

Software Engineer	Aug 2026 to present
Stealth Startup	Remote
• Design and ship full-stack and artificial intelligence (AI) systems across application programming interfaces (APIs), automation, developer tooling, and large language model (LLM) workflows, including tool-calling, structured inputs and outputs, and retrieval-augmented generation (RAG) when needed. • Build and evaluate agentic coding flows with task decomposition, model routing, context handoffs, and human-in-the-loop verification before merge or handoff. • Write bilingual technical notes in English and Chinese so prompts, commits, and handoffs stay specific instead of generic.	
Undergraduate Student Researcher	Jun 2026 to Jul 2026
National Science Foundation (NSF)	Bloomington, IN
• Investigate how consumer applications collect, store, and protect personal data and privacy on a university research project with an industry partner under a non-disclosure agreement (NDA). • Document and analyse privacy and data-handling practices for research deliverables at a high level without disclosing partner-confidential detail.	
Undergraduate Researcher	Aug 2025 to Dec 2025
Indiana University Luddy School of Informatics, Computing, and Engineering	Bloomington, IN
• Analyse how consumer technology handles personal data, including collection, storage, and protection practices. • Extend privacy research on personal data practices in consumer technology in an academic Luddy School setting.	
Undergraduate Researcher	May 2024 to Dec 2024
Public Interest Technology University Network (PIT-UN)	Bloomington, IN
• Research agentic AI (systems that can act toward a goal with limited human prompting) as public interest technology for nonprofit organisations. • Research go-to-market (GTM) strategy as a public interest technology question for nonprofit settings. • Connect agentic AI and GTM implications for nonprofit adoption; founded Serve-AI via PIT-UN as a public-interest AI track.	

Skills

Languages	Python, TypeScript, JavaScript, SQL, HTML/CSS, LaTeX
Frameworks & Infra	React, Node.js, PostgreSQL, Git, GitHub Pages, APIs
AI & Product	full-stack AI, LLM, RAG, agentic AI, GTM / go-to-market, tool-calling, structured inputs/outputs
Data & Privacy Practices	privacy, personal data, consumer technology, NDA-aware research, database management, ETL WCAG 2.1, technical documentation, exception handling, input validation, Figma, Canvas LMS
Spoken languages	English (native), Fuzhounese (native), Spanish (intermediate); bilingual technical writing (English / Chinese)
