Education

Indiana University Bloomington Bloomington, IN
B.S. Informatics (Business and Society) Expected May 2027

- Luddy School of Informatics, Computing, and Engineering | GPA: 3.50
- Hudson & Holland Platinum Scholar (Full Merit) | Direct Admit | First-generation college student
- STEM MAP Coordinator (science, technology, engineering, and mathematics; Mentor Apprenticeship Programme), Faculty and Staff for Student Excellence (FASE), IU Office of Student Life; day-to-day coordination for 50+ first-generation and low-income students
- Serve IT Clinic Website Team Lead: 5+ nonprofit web projects (WCAG 2.1); early-career Handshake / Instagram content with about 1.2 million combined views
- Study abroad: Universidad Complutense de Madrid, Spring 2026

Cathedral High School Indianapolis, IN
High school diploma, high honours | GPA: 4.00 Aug 2019 to May 2023

- Advanced Placement (AP) Scholar; Quill and Scroll; AP CSA (Java) and AP CSP; yearbook editor; 200+ service hours

Experience

Software Engineer Aug 2026 to present
Stealth Startup Remote

- Designed and shipped full-stack product features in Python, TypeScript, React, and Node.js across application programming interfaces (APIs), backend services, frontend interfaces, and database-backed workflows from design through release.
- Built automation and developer tooling that support reliable releases, and integrated large language model (LLM) workflows such as tool-calling, structured inputs and outputs, and retrieval-augmented generation (RAG) when they speed delivery.

Undergraduate Student Researcher Jun 2026 to Jul 2026
National Science Foundation (NSF) Bloomington, IN

- Investigated how consumer applications collect, store, and protect personal data on a university research project with an industry partner under a non-disclosure agreement (NDA).
- Documented and analysed privacy and data-handling practices into research deliverables at a high level, without disclosing partner-confidential detail.

Undergraduate Researcher Aug 2025 to Dec 2025
Indiana University Luddy School of Informatics, Computing, and Engineering Bloomington, IN

- Analysed personal data practices in consumer technology, covering collection, storage, and protection methods across product and research sources.
- Produced written research notes that extended Luddy School privacy work through independent review and clear, reusable documentation.

Undergraduate Researcher May 2024 to Dec 2024
Public Interest Technology University Network (PIT-UN) Bloomington, IN

- Researched agentic AI (systems that can act toward a goal with limited human prompting) as public interest technology for nonprofit organisations.
- Evaluated go-to-market (GTM) approaches for nonprofit technology adoption and founded Serve-AI as a public-interest AI track via PIT-UN.

Skills

Languages	Python, TypeScript, JavaScript, SQL, HTML, CSS, LaTeX
Frameworks	React, Node.js, PostgreSQL, Git, GitHub Pages, APIs

AI / ML	full-stack AI systems, LLM (large language model), RAG (retrieval-augmented generation), agentic AI, tool-calling, structured inputs and outputs
Data / Privacy	privacy, personal data, consumer technology, NDA-aware research, database management, ETL (extract, transform, load)
Tools / Practices	GTM (go-to-market), WCAG (Web Content Accessibility Guidelines) 2.1, technical documentation, exception handling, input validation, Figma, Canvas LMS
Spoken languages	English (native), Fuzhounese (native), Spanish (intermediate)
