Informatics @ IU Luddy | ServeIT | Looking for SWE roles | May 2027

Bloomington, IN | Open to Southern California | jlzhao@iu.edu | (312) 583-7703 | linkedin.com/in/jadexzhao | jlzhao.pages.iu.edu/resume.pdf | jadexzhao.github.io/jadexzhao | github.com/jadexzhao

Summary

Most of my software work runs through ServeIT Clinic at IU Luddy: accessible nonprofit web, Python/PostgreSQL data pipelines, and ServeAI (PIT-UN public-interest AI for community partners). B.S. Informatics, May 2027. I ship in Python and TypeScript and leave partners with systems they can maintain. Looking for software engineering roles, open to Southern California.

Experience

Website Team Lead | ServeIT Clinic, IU Luddy

Jan 2024 – Present

Bloomington, IN | IU Luddy's nonprofit tech clinic

- Lead WCAG 2.1 nonprofit web builds; scope with partner staff and ship sites they maintain without a developer on call
- Engineer engagement tools and Python/PostgreSQL ETL pipelines with validation for community partner data
- ServeAI (ServeIT's PIT-UN track): responsible generative AI tools and guides so local nonprofits can adopt AI without losing accessibility or trust

MAP Coordinator & Undergraduate Teaching Assistant | IU Luddy / FASE

Aug 2023 – Present

Bloomington, IN

- Run FASE Mentor Apprenticeship day-to-day: mostly mentor training, Canvas ops, and emails; keep the matchaxmoxie teaching site current
- Support 50+ students as a UTA with study resources; help plan campus leadership programming with university partners

Software Engineering Intern | Squirrel

Jun 2026 – Jul 2026

New York City (Hybrid) | Company acquired during internship

- Scoped technical asks from customer discovery calls alongside sales and engineering
- Built demo sandboxes and integration prototypes for live pilot walkthroughs
- Wrote Python onboarding automation and pilot-to-production handoff documentation

Student Ambassador | OVPUE, Indiana University

Aug 2023 – Present

Bloomington, IN

- Represent IU for prospective students and executive visitors; lead presentations and campus discovery sessions
- Partner with directors and advisors on visit scheduling, onboarding communications, and high-sensitivity admissions questions

Web Designer & Instructor | Girls Who Code

Jan 2018 – Aug 2023

Indianapolis, IN

- Taught 50+ students front-end basics and digital literacy; mentored 20+ young women toward STEM through workshops and student-led projects

Education

Indiana University, Luddy School of Informatics | Bloomington, IN

May 2027

B.S. Informatics (Business & Society), Minor: Business (Kelley) | GPA: 3.70

Hudson & Holland Scholar | Dean's List | Luddy Direct Admit | Hutton Honors | Study abroad: Complutense Madrid, Spring 2026

Selected Projects (ServeIT)

Civic Reporting & Analytics Platform | Bloomington Chamber of Commerce

Aug 2025 – Dec 2025

- Full-stack civic reporting with dashboards for municipal service requests and regional trends (React, Node.js, D3.js, WCAG 2.1)

Citizen-Science Data Portal | Indiana Phenology

Jan 2025 – May 2025

- Observation ingestion platform with automated CSV/XML pipelines into a queryable database (Python, PostgreSQL, ETL, WCAG 2.1)

Skills

Technical: Python, TypeScript, JavaScript, SQL, React, Node.js, PostgreSQL, Git, HTML/CSS

Practices: WCAG 2.1, ETL, accessible web, ServeAI / public-interest AI, technical documentation

Languages: English (native/bilingual) | Mandarin Chinese (native/fluent) | Fuzhounese (professional) | Spanish (elementary)
