Summary

Looking for a software engineering role after May 2027 near databases, internal information systems, information technology (IT), and extract, transform, load (ETL). Daughter of restaurant owners; grew into software at Indiana University (IU). Digital Humans at Luddy LINK, web leadership at Serve IT, plus privacy, user experience (UX), and artificial intelligence (AI) strategy along the way. Same question every time: will this still work for the people who have to live with it?

Education

Indiana University Bloomington Bloomington, IN
B.S. Informatics (Business and Society), Luddy Expected May 2027
• GPA 3.50; Hudson & Holland Platinum Scholar (full merit); Direct Admit; first-generation. Study abroad: Universidad Complutense de Madrid (UCM), Spring 2026. Cathedral High School: high honours, GPA 4.00, AP Scholar.
• STEM MAP Coordinator, Faculty and Staff for Student Excellence (FASE) Mentor Apprenticeship Programme; 50+ first-generation and low-income mentors. HHSP Programme Assistant, IUB Undergraduate Education. Handshake / Instagram content, about 1.2M combined views.

Experience

Digital Humans Project Lead Feb 2025 to present
Luddy LINK, Luddy School, Indiana University Bloomington, IN
• Lead research on digital humans (AI-driven virtual personas) as useful business interfaces ... trust, disclosure, and adoption when AI looks and communicates like a person.
Website Team Lead / Accessibility Analyst Jan 2024 to present
Serve IT Nonprofit, Clinic, Luddy School, Indiana University Bloomington, IN
• Lead website and data handoffs for nonprofit partners without an in-house engineering team; ship maintainable builds targeting Web Content Accessibility Guidelines (WCAG) 2.1 and Python / PostgreSQL extract, transform, load (ETL) pipelines.
• Fall 2026 Accessibility Analyst co-lead for Town of Nashville ACC (Aug 2026 to present) ... assessment findings staff can act on.
Web Developer Jun 2026 to Jul 2026
National Science Foundation (NSF) Bloomington, IN
• Study how consumer apps collect, store, and protect personal data on a university project with an industry partner under a non-disclosure agreement (NDA). Partner-confidential detail stays behind the NDA.
User Experience Designer Aug 2025 to Dec 2025
IUB Undergraduate Education Bloomington, IN
• Carry privacy research into how people meet consumer technology ... collection, storage, and protection of personal data; keep the user-facing story clear.
Business Technologist May 2024 to Dec 2024
Public Interest Technology University Network (PIT-UN) Bloomington, IN
• Research agentic AI and go-to-market (GTM) strategy as public-interest technology for nonprofit organisations ... adoption that lasts after the pilot.
Founder 2024 to present
Jade Bloomington / remote
• Web, branding, and software for small businesses and community organisations ... Showit-friendly redesigns and full-stack handoffs partners can maintain.
Restaurant Kid May 2017 to Jun 2023
Family Chinese restaurant Greenfield, IN
• Work every role on the floor, till, and kitchen. After COVID-19, rebuild the website and social from scratch ... the first time technology felt part of keeping the business alive.

Skills

Technical
• Languages: Python, TypeScript, JavaScript, SQL, HTML/CSS, LaTeX. Frameworks & infra: React, Node.js, PostgreSQL, Git, GitHub Pages, APIs.
• Data & systems: databases, ETL pipelines, internal information systems, IT collaboration. AI & product: digital humans, LLM, RAG, agentic AI, HCI, UX, privacy, WCAG 2.1, GTM, Figma.
• Spoken: English (native), Fuzhounese (native), Spanish (intermediate).
