

Account handoff · Email (Google Workspace / Gmail)

Last checked: October 2026 · Managed by: _____ (organisation fills this in)

What this is

Your organisation's email account. It may also control access to other Google services.

Who owns the login?

- Account owner / admin: _____
- Backup admin: _____
- Recovery email / phone is controlled by: _____

Prefer a second Super Admin for Workspace. Do not share one mailbox login with every staff member. Never put the password on this sheet.

Before you start

Use only an account you have permission to use. If you do not know which account to use, or cannot sign in, stop and ask the named account owner. Never share or write down a password or sign-in code.

Steps to follow

- 1 Sign in with the organisation email and its normal sign-in method (mail.google.com or the Gmail app).
- 2 Need a new employee? An administrator creates a separate user account. Do not give everyone the same mailbox login.
- 3 Someone cannot sign in? Try the normal password-reset process first. Personal Gmail uses Google Account recovery. Work accounts may need an admin.
- 4 Need to change someone's access? The administrator manages that person in Google Admin (or Gmail settings for delegates).
- 5 Someone leaves? Remove or suspend their access in your offboarding process.
- 6 Never write the password here. Store credentials in your approved password manager only.

If the screen looks different, stop before changing settings. Use the official help link below or ask the account owner for help.

Official help (US links; region may differ)

Delegate a Gmail mailbox: <https://support.google.com/mail/answer/138350>

Recover admin access (Google Workspace):

<https://knowledge.workspace.google.com/admin/users/recovering-administrator-access-to-your-account>

Recover a Google Account or Gmail (personal; work may need admin): <https://support.google.com/accounts/answer/7682439>

Warning / troubleshooting

- If nobody knows who the administrator is, find who originally set up Google Workspace (often the owner or their IT helper).
- US help links. Your region may show different wording.

Do not

- Do not write passwords, MFA codes, or recovery answers on this sheet.
- Do not share one personal Gmail password across the team.
